

SUMMARY

Currently seeking an internship opportunity that will aid in connecting my academic background to real-world application, enhance my professional development, and foster an environment of hands-on learning. I am a lifelong learner who seeks to combine creativity and technical aptitude to help provide solutions to any problem and look forward to partnering with a company that will aid in my continued growth.

WORK EXPERIENCE

August 2019 - Present [Clarke Information Technology Solutions, LLC](#) Hampton, VA

Web Developer & Project Manager

Focused clientele have been small businesses and start-ups. Helped 10+ businesses bring their vision to life through dynamic, specialized websites. Throughout the process, learned to help streamline the client-vendor experience.

- Collaborate with clients for design translation into functional websites.
- Contributed to project scoping and sprint planning, ensuring alignment on priorities and deliverables.
- Facilitated weekly stand-ups to identify blockers, re-evaluate sprint progress, and adjust timelines based on team velocity and client needs.

March 2025 - present [Norfolk State University](#) Norfolk, VA

Student Affairs Intern

Appointed to the AGOGE 2025 Planning Committee (NSU's Welcome Week for Fall 2025), with a key role in:

- Increasing student engagement and connectivity through innovative programming ideas.
- Contributing to event design, logistics coordination, and marketing strategies.
- Collaborate with university departments to enhance student support services and overall campus experience.
- Manage administrative responsibilities such as data entry, scheduling, and report preparation.
- Research to promote campus resources and events.
